

HOAR CROSS

NURSING HOME

Caring to be better

The ideal choice for care

Our aims

Caring

To exceed the expectations and needs of our residents with exemplary care provided by a dedicated team of fully qualified and professional staff, with an emphasis on dignity and respect

Environment

To provide beautiful, tranquil, inspiring, state of the art and practical surroundings for our residents to enjoy, both inside the Heritage home and in the surrounding grounds

Staff

To make sure that our accomplished and professional staff are encouraged and supported to continue their professional development throughout their career at Hoar Cross, in order that they may create an atmosphere of friendship, respect and above all provide best possible care for all our residents

A new life in the country

Hoar Cross Nursing Home is an impressive home occupying a magnificent spot in the beautiful Staffordshire countryside. With far reaching views from the 3 acres of landscaped gardens, we provide premium care from exceptional, committed staff in outstanding facilities, to daily newspapers delivered to your room – Hoar Cross offers a lifestyle choice second to none.

Dating back to the 17th century, Hoar Cross is a handsome Heritage building in one of the most beautiful corners of the country. Having recently undergone an extensive refurbishment programme allows us to offer old world charm and magnificence with all the modern conveniences you can imagine. From our optional prestige rooms offering a sense of luxury, to our new spa bath, internet facilities and regular hairdressing on site for all of our residents, Hoar Cross sets a new standard in care.

With a variety of tastefully decorated room types available to suit your specific requirements, our splendid grounds, varied and accommodating catering, and round the clock care ensure that every resident feels comfortable in dignified surroundings. With numerous reception, lounge and dining areas available, there is a part of the home to suit any mood.

Starting off with an assessment of individual needs, our dedicated and professional care team design a bespoke plan addressing the medical, personal and social requirements of the resident. We offer a proficient and supportive home for the disabled of any age, the elderly, those with dementia as well as individuals requiring temporary respite or convalescence care.

Our enthusiastic activity coordinators ensure that all our residents have regular opportunities to mix with those of a similar age and with common interests, making sure activities are designed to be flexible enough to suit individual needs and expectations. Our team provide round the clock care that you and your family can be sure is of the highest quality.

What we do

Nursing Care

Round the clock a team of fully qualified nursing staff with many years of experience provides care. Going far beyond the fundamental needs of each resident, we want to make sure every resident feels very well looked after. A local General Practitioner makes regular visits to the home, as do chiropodists and physiotherapists to ensure complete care.

Elderly Care

Residents not requiring the same level of medical attention, but taking comfort in the reassurance of nursing facilities, enjoy the wonderful amenities and programmes available. With the support of our staff to maintain independence and stay active, we aspire to help these residents live life to the fullest.

Disabled Care for Adults

Our home is fully equipped and accessible for those with varying physical needs. Our staff are able to meet the physical and social needs of the younger resident with limited mobility.

Respite or Convalescence Care

The daily responsibilities of looking after oneself or a loved one after a period of illness, disability or convalescence can be overwhelming. Hoar Cross can offer 24 hour care for periods as short as one week in order to give you the break you may need.

Dementia Care

One of the key aspects of this type of care is providing support for the families of those suffering from dementia. We help families feel positive about taking the steps needed when they can no longer look after their loved ones at home.

Social Life

Our dedicated team of Activities Coordinators make sure that all of our residents are able to participate in a variety of events and experiences, suited to their needs, abilities and tastes. From exercise classes to live music performances, group games to walks in our spectacular grounds and shopping and church visits if you choose, - there is truly something for everyone.

Hoar Cross is also very fortunate to have the support of The Hoar Cross League of Friends, which is made up of members of the local community, who organise events such as parties and Summer and Christmas Fayres. The spiritual needs of residents are well catered for, with Holy Communion and Songs of Praise taking place regularly and arrangements can be made for residents of other denominations and faiths.

Facilities

We continually invest in new equipment, facilities and developing our staff. We have the latest equipment including a spa bath to ensure ease and comfort in providing care and the benefits of a sensory and reminiscence rooms as well as a sensory patio garden in our large grounds.

History & Heritage

1793

The Meynell family purchase the Hoar Cross Estate from the Honourable Charles Talbot, which included a mansion on the current site

1863

Hugo Francis Meynell Ingram marries the Honourable Emily Charlotte, daughter of Sir Charles Wood, 1st Viscount of Halifax. Over the coming years, the New Hall was built for the family to reside in.

1872

After Hugo lost his life in a riding accident, his widow built the Hoar Cross Church in his memory

1888

Part of the Old Hall was converted for use as an orphanage for boys, who sang in the church choir and were altar boys for the church. The Old Hall was renamed St Michael's House, and Hoar Cross House, constructed in 1865 became The New Hall.

1987

The property was converted and extended into a care home after many years as a Church of England Children's Home

2016

The home was taken over by the current owners who have made considerable investments to improve and extend the property and facilities, bringing what the home has to offer to its residents up to the exceedingly high standard of today.

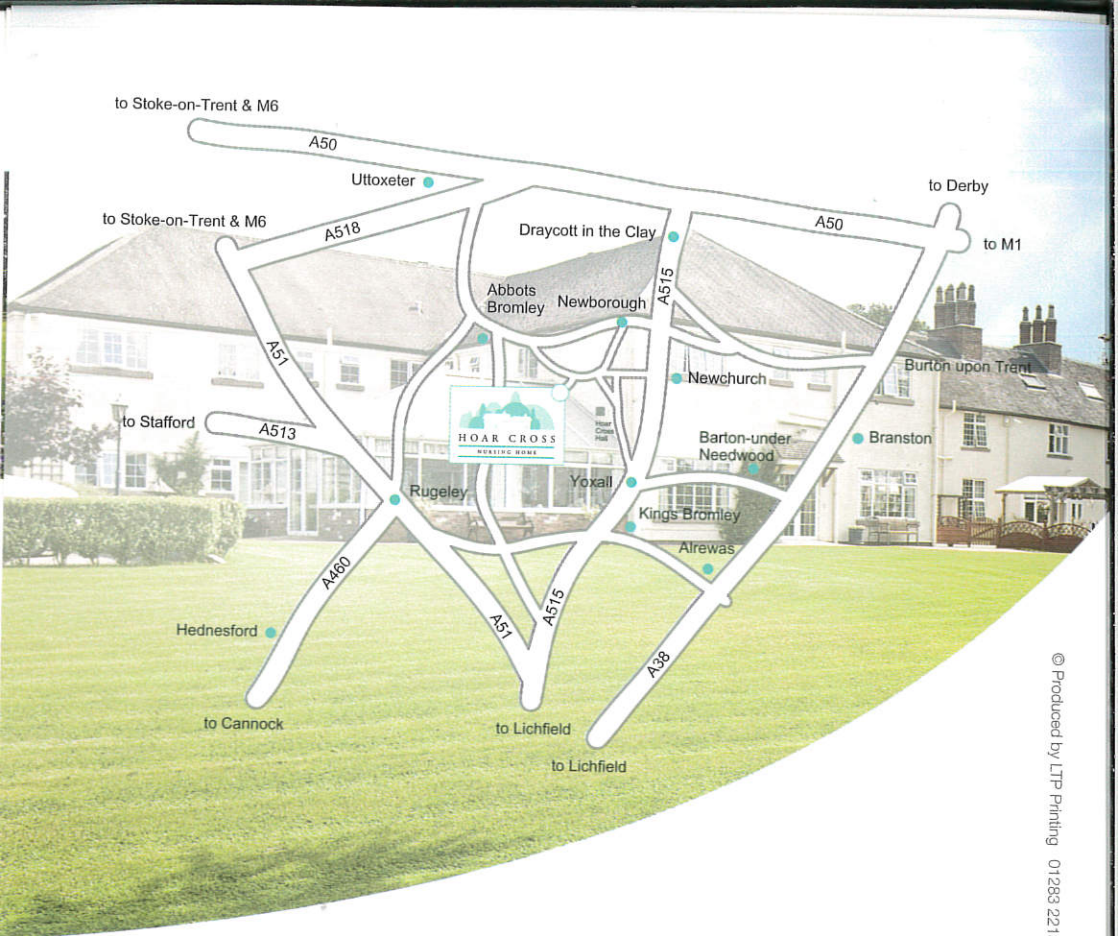

We have been providing premium care for 25 years and would be delighted to show you and your family what Hoar Cross has to offer.

Ring us on **01283 575210** to arrange an appointment, or just drop in for a tour of our outstanding home and facilities.
